

## Tournament Principles

- ◆ Draws are posted on the board for easy viewing. Each player may also receive a personal copy of his/her draw at the front desk. The draws on the tournament desk are for staff use only.
- ◆ Please read any and all signs on the board. They contain important information regarding rules, scoring, officiating, and the like. Players will be expected to know this information.
- ◆ The earlier **both players** (or doubles teams) check in at the tournament desk prior to their match, the sooner their match will be put on court relative to other matches scheduled for the same time. Once both players have checked in, they must remain in the vicinity of the desk or risk forfeiting their standing.
- ◆ After the first matches of the day, we do not know in advance on which court any particular match will be played. The next match up is always put on the first available court.
- ◆ The tournament staff is extremely reluctant to entertain special requests regarding changing the match schedule in mid-stream. We appreciate those who make our event their number one priority for the weekend.
- ◆ Spectators are encouraged to applaud high quality tennis in a respectful manner.
- ◆ Our top priority is to treat all participants fairly. This includes seeding, scheduling, assigning courts, time violations and all

subjective elements of the tournament. Our integrity relies on your satisfaction in this area. Any inquiries may be directed to Tom Chorney.

- ◆ Our hope is for all participants to have an enjoyable competitive experience at Cherokee. Above all, let's keep it fun!
